**Comparison between Current Financial Quarter / Year-to-date Ended 31 March 2012 and Previous Corresponding Quarter / Year-to-date Ended 31 March 2011**

A summary of the Group’s performance is set out below:-

	3 Months Ended					
	31.03.2012			31.03.2011		
	Plastic Injection Moulding	Precision Cleaning	Total	Plastic Injection Moulding	Precision Cleaning	Total
	RM’000	RM’000	RM’000	RM’000	RM’000	RM’000
Revenue	879	9,060	9,939	720	7,349	8,069
Gross (loss)/profit	(59)	2,757	2,698	72	2,686	2,758
Profit/(loss) before tax			335			(196)

**Plastic Injection Moulding Division**

Revenue from plastic injection moulding was approximately 22% higher than preceding year corresponding quarter and the financial year-to-date.

The plastic injection moulding division incurred a gross loss for the current quarter and the financial year-to-date compared with a gross profit in the previous corresponding quarter and the financial year-to-date mainly due to increase in material costs by RM116,000 and direct labour costs, following the increase in mandatory minimum wages by 40% in the PRC beginning 3<sup>rd</sup> quarter 2011 onwards.

**Precision Cleaning Division**

Revenue from precision cleaning was approximately 23% higher than preceding year corresponding quarter/ and the financial year-to-date.

The gross profit margin (“**GP margin**”) for the precision cleaning division however decreases from approximately 37% to 31%, due primarily to the following:-

- (a) Increase in operational expenses incurred by Techsin Electronics (Wuxi) Co., Ltd., a wholly-owned subsidiary of MCLearn upon commencement of the operation of its 2<sup>nd</sup> Plant in July 2011 comprising of the followings:-

- Increase in factory overhead expenses comprising rental of premises, depreciation of plant and equipment, freight inward costs, repair and maintenance costs by RM315,000;
  - Amortization of development costs capitalised as part of the relocation of previous operations to the 2<sup>nd</sup> plant amounting to RM72,000; and
  - increase in mandatory minimum wages by 40% in the PRC beginning 3<sup>rd</sup> quarter 2011 onwards.
- (b) A change in terms of trade whereby MClean Singapore now bears the ocean freight charges of approximately RM316,000 for shipment of cassettes from China to Singapore as its inward freight costs (as Cost of Sales) instead of Techsin Wuxi bearing the ocean freight charges as its Distribution Costs (under Selling & Distribution expenses in the income statement).

Overall, the Group reported a profit before tax of RM335,000 from a loss before tax of RM196,000 in the previous quarter and the financial year-to-date notwithstanding reduction in GP margin during the current quarter and the financial year-to-date, mainly due to the following:

- (i) higher selling and distribution expenses incurred during the previous quarter and the financial year-to-date as at that point in time, there were additional shipping requirements for washed products by a major customer; and
- (ii) weaker USD exchange rate against the RM in the previous quarter and the financial year-to-date. At that point in time, the Group’s source of revenue was mainly denominated in USD and as such, the weakening of the USD eroded the Group’s profitability.

**15. Material Changes in the Quarterly Results as Compared with the Immediate Preceding Quarter**

	3 Months Ended					
	31.03.2012			31.12.2011		
	Plastic Injection Moulding	Precision Cleaning	Total	Plastic Injection Moulding	Precision Cleaning	Total
	RM’000	RM’000	RM’000	RM’000	RM’000	RM’000
Revenue	879	9,060	9,939	1,221	7,229	8,450
Gross (loss) / profit	(59)	2,757	2,698	(43)	646	603
Profit/(loss)/ before tax			335			(1,675)

Plastic Injection Moulding Division

Revenue from plastic injection moulding was approximately 28% lower than the immediate preceding quarter due to decrease in orders for mould manufacturing. Gross loss margin increased due to the effect of reduce revenue over fixed factory overhead such as rent and depreciation.

Precision Cleaning Division

The Group’s revenue from precision cleaning increased by 25% or approximately RM1.8 million in the current financial quarter as compared to the immediate preceding quarter. The lower sales revenue of the immediate preceding quarter was the result of the severe flooding in Thailand affecting the HDD supply chain in South East Asia region.

The Group’s GP margin for precision cleaning has also increased from 9% to 31%, due primarily to:

- a) increase in Cleanroom assembly services which generally fetch a higher margin
- b) decrease in direct operational expenses incurred by Techsin Wuxi through improve efficiency.

Taking into account the abovementioned, the Group registered a profit before tax of approximately RM335,000, as compared to a loss before tax of approximately RM1.68million in the immediate preceding quarter.

**16. Future Prospects**

According to Independent Market Research Report from Techno Systems Research Co. Ltd from Japan, HDD shipment for 2012 Q1 has increased by about 22.5% as compared to 2011 Q4 due mainly to the partial recovery of the critical component shortages from the flooding in Thailand. This beats the earlier forecasted increase of 11%. Shipment of HDD for 2012 is expected to surpass HDD shipment for 2011 by about 9%. However, the ongoing eurozone debt crisis may affect the global economy which in turn will have an adverse impact on the demand for HDD. If there is a reduction of the global HDD demand, it will certainly affect the performance of the company.

The other challenge for the company remains the rising labour cost both in China and Singapore. The ability to successfully implement productivity improvements programs and semi automation in various processes in a timely manner to reduce headcount are challenges that the company need to overcome which will impact the overall performance of the company.

Estimated current tax expense	65	-
Under provision of tax in prior year	1	-
Utilization of deferred tax assets on temporary differences not recognized in previous year	(36)	-
	<u>30</u>	<u>-</u>

The Group’s average effective tax rate for the current quarter and financial year to date ended 31 March 2012 of approximately 17.9% was higher than the statutory tax rate of 25% in Malaysia and 17% in Singapore mainly due to profit reported and under provision of tax in prior year by a subsidiary of a Group.
